

A QUICK ANALYSIS TO SHOW THAT NEPAL QUAKE IS FROM TWO SIMULTANEOUS EVENTS

KETU on ecliptic at 8.9 deg aries And Aries at 8 shows KETU is at 0.9 deg angle with Ecliptic

NEPTUNE in Pisces is behind KETU but is really at 29.09 deg ahead $\left(\frac{NR_{19} \cdot Rs}{Ro \cdot 2} - 1 \right) \cdot \frac{500}{240} = 29.0917753653$

Hence NEPTUNE at Pisces 339 +29.09=368.7 or 368.7-360 = 8.09 ARIES and CROSSES ecliptic at 8 deg Aries

URANUS in Aries 17.6 deg is really at 17.856 as shown $\frac{\left(\frac{NR_{15} \cdot Rs}{Ro \cdot 2} - 1 \right) \cdot 500}{240} = 17.8562342478$

Hence it is at 17.6 + 17.856 = 35.456 and is crossing the Solar ecliptic at TAURUS 4.7 deg
